

Maths skill to practice this week: **number bonds to 10**.

Start with an empty ten frame.

Ask your child how many counters they need to make 10.

Now show 1 on a ten frame. Ask how many counters are needed now to make 10.

Challenge children to work systematically to find all the number bonds to 10.

Encourage fluent recall rather than counting.

Ask children to write a number sentence for each number bond, and if any of the number sentences show the same bond.
