

Last term

Albert has 60p, what 2 items could he buy? Is there more than one answer?

Previous learning

Here are 2 ribbons, the total length of the ribbons is 1m.

One ribbon is 46cm, what is the length of the other ribbon?

We are currently learning

How would you measure the capacity of each object?

Tick litres or millilitres.

Object	Litres	Millilitres
bath		
mug		
teapot		
swimming pool		

We are learning next

David pours 6l of water into the barrel

Eliana pours 5l of water into the barrel

Nieve pours 3l of water into the barrel

Draw where the water would fill up to in the barrel
