

# In Reception this week...

Week beginning 13/2/26

In Topic, we had a fantastic time making rockets. A huge thank you to everyone who came and supported us. The children were thrilled to be able to blast their rockets onto the field with the help of staff from the WMG Engineering Academy.

Thank you to everyone for your support and we hope all our Reception children and families have a lovely half-term break.

In English this week we have been exploring non-fiction texts about space. We all wrote a fact about space and made a class poster. It was a lovely way to display our knowledge about space!

In phonics, we have learnt the sounds 'ai' and 'ee'. The children are already spotting these sounds in their books. We have also completed a phonics assessment with all the children this week. We are delighted with their progress! Apologise, this has meant we haven't heard all the children read this week.

In maths, we have focused on comparing two sets of items. We have been using the language 'more than', 'fewer than' and 'equal to'. The children explored how the colour, shape and size of objects aren't important when we are comparing quantities.
