

Last term (Y3)

There is at least one right angle in each picture.

Find all the right angles.

The first one has been done for you.

a)  c)  e) 

b)  d)  f) 

Previous learning...

Here are some calculations.

$112 + 125$	$362 + 125$	$200 - 100$	$362 - 125$
$362 - 237$	$200 + 300$	$237 - 112$	$125 - 112$
$130 + 240$	$237 + 362$	$300 - 100$	$240 - 130$

Which calculations can be used to check $125 + 237$?

Which calculations can be used to check $237 - 125$?

What could the other calculations be used to check?

We are currently learning...

- Amir and Whitney are using number lines to add and subtract.

Use this method to work out the calculations.

$2,418 + 6$	$2,418 + 800$	$2,418 + 90$
$2,418 - 30$	$2,418 - 9$	$2,418 - 700$

We are learning next...

- Kim, Tom and Huan are working out $203 - 198$

Whose method do you prefer? Why?

Which is the most efficient method?

Use your preferred method to complete the subtractions.

$9,807 - 9,792$	$809 - 15$	$3,876 - 1,400$	$4,204 - 2,417$
-----------------	------------	-----------------	-----------------

Did you use the same method each time?
