

Last term (Y3)

Eva, Alex and Amir want to find the distance from Halifax to Leeds.

Eva

I'm going to use the written method to do $18 + 67$ and then subtract 37

Alex

You need to add 18, 67 and 37 together.

Amir

I can use mental strategies to subtract 37 from 67 first, and then add 18

Whose method is incorrect?

What is the distance from Halifax to Leeds?
